Sailing an F28 is an incredibly pleasant and exhilarating sailing experience, sublime beyond the simple sensation of speed. It seems so effortless as the sleek hull accelerates smoothly, silently & swiftly through the water. Fingertip touch on the balanced helm is all that is required to maintain perfect control at any speed. The F-28 points high, tacks like a dinghy and is responsive & nimble. A major evolution on the F27 the C28 has more volume in the amas, a larger main hull and more performance all round.
